

Adham Al-Theiabat

Nationality: Jordanian **Date of birth:** 29 May 1995 **Place of birth:** Jordan **Phone:**

☎ (+962) 0780185888 (Mobile) ✉ **Email address:** adhamthiabat@gmail.com 📍

Address: 21110, Irbid, Jordan (Home)

WORK EXPERIENCE

Ramallah Company for Steel Industry - Jordan, Zarqa

Electrical engineer

[10 Jun 2019 - 8 Feb 2021]

- Design and maintenance of electrical panels
- Supervising the implementation of production lines

Inventionland Company - United States, Pittsburgh

Freelance R&D Engineer - IoT Systems

[31 May 2019 - 31 May 2023]

Experience & Responsibilities:

- **R&D & System Architecture:** Conceptualizing, designing, and architecting end-to-end IoT solutions.
- **Hardware & PCB Design:** Engineering schematic diagrams and multi-layer PCB layouts.
- **Firmware & MCU Programming:** Developing reliable, low-latency firmware and managing RTOS tasks.
- **Full-Stack Development:** Building secure backend servers, databases, and API integrations.
- **System Integration:** Connecting hardware components with cloud protocols and internal interfaces.

Aura Company - Türkiye, Alanya

Freelance R&D Engineer - IoT Systems

[31 Dec 2020 - 31 May 2023]

Voltaat Trading Store - Qatar, Doha

Freelance R&D Engineer | Embedded Hardware (PCB) & Firmware

[1 Jun 2023 - 1 Apr 2024]

- Programming and designing projects in various fields
- PCB Designer (Training Boards)

Special Communications Commission - Jordan, Amman

R&D Engineer | Embedded Hardware (PCB) & Firmware

[1 Oct 2024 - Current]

Experience & Responsibilities:

- **R&D & System Architecture:** Conceptualizing, designing, and architecting end-to-end IoT solutions.
- **Hardware & PCB Design:** Engineering schematic diagrams and multi-layer PCB layouts.
- **Firmware & MCU Programming:** Developing reliable, low-latency firmware and managing RTOS tasks.
- **Full-Stack Development:** Building secure backend servers, databases, and API integrations.
- **System Integration:** Connecting hardware components with cloud protocols and internal interfaces.

EDUCATION & TRAINING

Master of Electrical Power & Control Engineering

Jordan University of Science and Technology [May 2023 - Current]

City: Irbid | Country: Jordan

Website: <https://www.just.edu.jo/Pages/Default.aspx>

Bachelor of Electrical Power Engineering

Yarmouk University [2014 - 2018]

City: Irbid | Country: Jordan

Website: <https://www.yu.edu.jo/index.php/en> | Field(s) of study: Electrical Power Engineering: | Final grade: 86.2
Excellent

10-hour Android Team Awareness Kit (ATAK) Training

Task Force Devil - 1st Brigade Combat Team, 82nd Airborne Division [9 Jun 2026 - 9 Jun 2026]

City: Amman | Country: Jordan

Professional Training - AI / Machine Learning using advance libraires

42 Amman Team [12 Jan 2026 - 12 Feb 2026]

City: Amman | Country: Jordan

Reading Electrical Engineering Plans

Jordan Engineers Association [16 Feb 2019 - 23 Feb 2019]

City: Irbid | Country: Jordan

Website: <https://www.jea.org.jo/Default/en>

PLC Full Package and SCADA Run Time and Motion Technology Servo Motor

Science Caravan Academy for Consulting and Training Management [8 Nov 2019 - 1 Feb 2020]

City: Amman | Country: Jordan

Project Management Professional (PMP)

Engineers Training Center [7 Jun 2020 - 28 Jun 2020]

City: Amman | Country: Jordan

Website: https://www.jea.org.jo/EN/Pages/Engineers_Training_Center

Pumps (selection, operation, maintenance, fault detection and repair)

Jordan Engineers Association [Oct 2019]

City: Irbid | Country: Jordan

Website: <https://www.jea.org.jo/Default/en>

Certificate of Professional Competence

National Employment & Training [15 Oct 2017 - 14 Jan 2018]

City: Al Ramtha | Country: Jordan

Website: <https://net.jaf.mil.jo/en/> | Field(s) of study: Solar Photovoltaic Operator: | Final grade: Skilled Level

Certificate of life skills, leadership skills, practical skills, and general safety

National Employment & Training [28 Jan 2018 - 18 Mar 2018]

City: Al Ramtha | Country: Jordan

Website: <https://net.jaf.mil.jo/en/>

P.V Systems Design

Jordan Engineers Association [17 Mar 2018 - 31 Mar 2018]

City: Irbid | Country: Jordan

Website: <https://www.jea.org.jo/Default/en>

Construction Supervision Training Program

Jordan Engineers Association [9 Dec 2017 - 30 Dec 2017]

City: Irbid | Country: Jordan

Website: <https://www.jea.org.jo/Default/en>

Robotics - PIC Microcontroller

[Aug 2015]

City: Irbid | Country: Jordan

HONOURS AND AWARDS

[30 Nov 2017] The Jordanian Hashemite Fund for Human Development & Jordan Engineers Association

Designing Creative Eco-Friendly Building This certificate in appreciation for participation as a member of multidisciplinary team in the 2017 "JO-GREEN" competition for university students' for designing creative eco-friendly building, to enhance green building concepts.

[26 May 2016] Yarmouk University / Student Branch - IEEE

The Best Presentation / College of Engineering This certificate in appreciation for participation as the best presentation in smart grids in the 2016" The Best Presentation" competition for Al-Hijjawi college of engineering students.

KEY PROJECTS & ACHIEVEMENTS

Key Projects & Achievements

Nationwide Remote Monitoring & Control System: Engineered and deployed an end-to-end (Hardware, Firmware, & Backend) IoT solution for 400+ distributed sites nationwide, fully managed via a centralized command and control center.

Smart Fire Alarm System: Developed a full-stack automated fire alarm system, handling everything from sensor-node hardware and embedded firmware to backend alerting infrastructure.

Security & Counter-Surveillance Systems: Designed and implemented advanced signal jamming and anti-eavesdropping devices to secure critical meeting rooms and high-profile environments.

TAK (Team Awareness Kit) Integration: Integrated and customized TAK capabilities for real-time geospatial tracking and enhanced situational awareness.

Custom R&D Turnkey Projects: Successfully delivered various tailored IoT and electronic hardware products from initial concept to final deployment.

TECHNICAL SKILLS

Technical Skills

ELV & Smart Systems: Access Control, Real-time Monitoring, Alarm System, Smart Automation.

Hardware: PCB Design (Altium/KiCad), Circuit Design & Simulation, Component Selection.

Firmware/Embedded: C/C++, MCU Programming (PIC, ESP, STM32, etc.), RTOS.

Server & Backend: Server Setup & Deployment, Database Management, API Development.

IoT & Network Protocols: MQTT, TCP/IP | **Hardware Interfaces:** UART, SPI, I2C.

SKILLS

Electrical Control Panels Design: Automation Studio – Electrical, Eplan Electric P8 | CAD Programs: AutoCAD |
